

RENEWAL

Concept & Identity

Revival is more than a party – it is a collective experience built around house, disco house & tech house music. Born in Paris, the concept blends timeless grooves with a modern underground touch, celebrating both daytime gatherings and late-night club culture.

Each event is carefully crafted to offer more than music: unique venues, immersive atmospheres, and a sense of community that transcends the dancefloor.

From hidden courtyards and rooftops to renowned Parisian clubs, Revival brings people together around energy, freedom, and creativity.

With a focus on high-quality sound, bold visual identity, and forward-thinking line-ups, Revival has quickly become a recognizable signature in the French scene – a place where nostalgia meets innovation, and where every event feels like a celebration of unity through music.

Both groove-driven and emotionally resonant.

Our artist : Jeremy Weizman

Jeremy Weizman is a Paris-based DJ and producer navigating the space between house, techno and melodic electronic music. His sound combines hypnotic grooves and atmospheric textures, creating tracks that balance emotional depth with dancefloor energy.

Influenced by late-night city moods and underground club culture, he builds a sonic world where rhythm, tension and atmosphere are central. His releases, including I Met Her in Bahia, Haïfa Blue, Shot 2 My Heart and Big Times, reflect an evolving sound rooted in groove and emotion.

Beyond the studio, Jeremy is an active presence in the Paris electronic scene as both a DJ and creative force. Through projects such as Mishmish Paris and Revival Paris, he continues to shape a musical identity defined by minimalism, light and nocturnal energy.

Music influence:
Electro, Hip House, Groove

Our artist: LA NA

LA NA is an emerging figure on the Parisian electronic scene, crafting a sound at the crossroads of tech house and electro. Her sets are immersive and refined, built around groove, tension, and emotion.

From La Clairière to Gate Club and the Palais de Tokyo, LA NA has developed a strong connection with her audience through performances that are both hypnotic and elegant, always balancing energy with sensitivity.

Beyond the booth, LA NA is also shaping her own sonic identity in the studio, with tech house-oriented productions blending modern, mineral textures and evocative vocals. Her universe is both groove-driven and emotionally resonant, reflecting a distinctive artistic vision where underground aesthetics meet subtle sophistication.

Music influence:
Tech House, Indie Dance, Deep House

Our main artist: Saverio

Saverio is a producer, DJ and artistic director whose trajectory stands apart within the electronic music landscape. Signed to labels including Universal, Polydor/Barclay, Sony, Columbia and Azur Records, he has always moved with a distinctive vision and independent artistic direction.

From Italo disco to niche electro selections, Saverio gradually stepped away from major stages to reconnect with what originally drew him to electronic music: the people. Discreet by nature, he spent months in the studio refining a new ch

apter shaped by instinct, raw energy and intention. Rooted in electroclash, blog house and the spirit of 2000s electro revival, his sound returns to essentials – direct, stylish and uncompromising. Through this approach, Saverio builds a project driven by attitude, emotion and underground culture.

Music influence:

Electroclashed, Italo Disco, Disco house

Line-ups & Past Events

In just one year, Revival has already hosted more than 40 events across the World, establishing itself as a recognizable name in the city's electronic music landscape.

From daytime open-air to late-night club sessions, each edition has carried the same ambition: to merge house and disco house with unique atmospheres and carefully curated line-ups.

Revival has brought its concept to some of the capital's most emblematic venues, including Silencio, Rex Club, Les Bains, Solumn, Yoyo, Phantom ect... , while also transforming unconventional spaces into temporary dancefloors (recording studio, office ect).

With each edition, the collective has gathered a growing community of passionate dancers, uniting locals and visitors around a shared energy.

Now, after consolidating its presence in Paris, Revival is preparing to expand beyond France - bringing its signature sound, visuals, and atmosphere to European clubs and festivals.
